

West Virginia Psychological Association - Analysis of Licensing Data by County

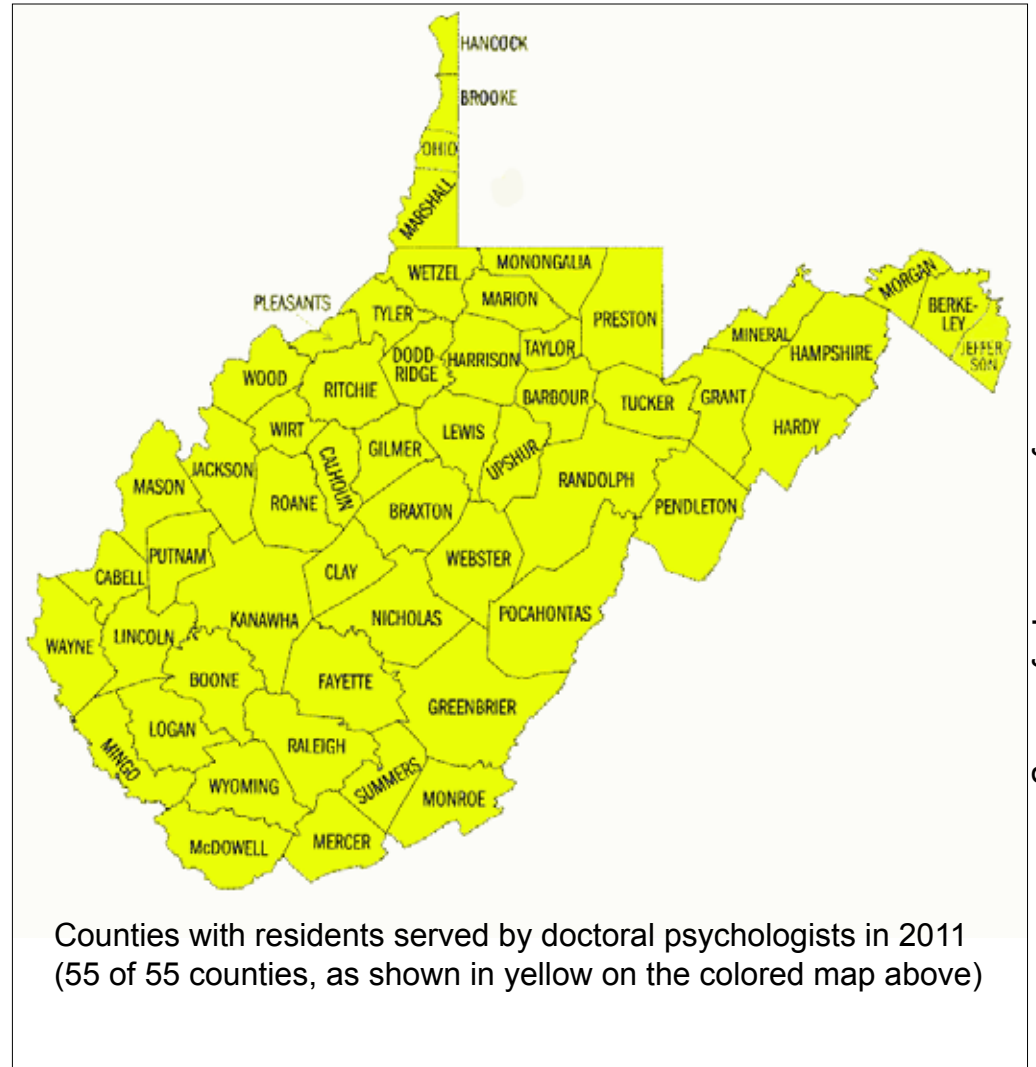

(WV Board of Examiners of Psychologists data as of 12/2/2011)

Legend:

Counties with masters licensee offices

Counties with no masters licensee offices

Counties with residents served by doctoral psychologists in 2011
(55 of 55 counties, as shown in yellow on the colored map above)

Doctoral psychologists saw patients from all 55 counties, including seniors, children, adults, veterans, and medical patients. They were seen in rural health clinics, Federally Qualified Health Care clinics, hospitals, VA medical centers, University clinics, integrative health care teams, interdisciplinary practices, and individual offices.
